...

The master cylinder is the device in your Audi A4 B7/B8 that converts brake pedal pressure to hydraulic pressure and pumps the brake fluid through your system. The master cylinder can fail when one of its seals becomes compromised, or is generally unable to produce enough pressure. A bad master cylinder will be accompanied by a spongy brake pedal.

Audi A4 Brake Master Cylinder - 8E0611021 - Genuine Audi Part

Your Audi A4's brake light indicator is there to let you know that there is an issue with the brake system. It is different than the anti-lock brake system, which gets its own ABS warning light. The brake light indicates that there is a problem with the physical braking system itself. If you are reading this article trying to figure out whether you should drive your vehicle, check the ...
