The built-in redial feature for iOS (left) and Android (right). Method 2: Use a Third-Party App (Android Only) While double-tapping the call button after each failed call isn't necessarily difficult, it's still a bit of a pain if done for hours on end. Any chance to automate the process is undoubtedly welcome, and that's just the sort of thing you'll find with the Play Store on your Android device.
