Sing and Sign - Helping Babies Communicate Before Speech

Welcome to Sing and Sign, North Herts. Hi, I'm Suzi and I run Sing and Sign classes for North Hertfordshire. I am mummy to two children and went to Sing and Sign classes with both of them. I first heard about Sing and Sign before I even had children through a friend who went with her daughter and the benefits were so obvious.

Sing and Sign - Helping Babies Communicate Before Speech

Limited research suggests that baby sign language might give a typically developing child a way to communicate several months earlier than those who only use vocal communication. This might help ease frustration between ages 8 months and 2 years — when children begin to know what they want, need and feel but don't necessarily have the verbal skills to express themselves.

Baby sign language: A good idea? - Mayo Clinic

I have had many speech therapists recommend the use of baby sign language with children who are experiencing difficulty communicating verbally. Baby sign language provides these children with a communication tool while strengthening the ability to produce expressive speech. As baby sign language reduces frustration, it results in less temper tantrums.
