A recent article in the prestigious American journal Foreign Affairs made a series of recommendations for US policy in the South China Sea. However, US policymakers should beware of such recommendations based on questionable assumptions and wishful thinking. Following them could lead to another US foreign-policy failure.

Shipbuilding is the construction of ships and other floating vessels. It normally takes place in a specialized facility known as a shipyard. Shipbuilders, also called shipwrights, follow a specialized occupation that traces its roots to before recorded history.. Shipbuilding and ship repairs, both commercial and military, are referred to as "naval engineering".
