I have a wf-3520 that I use for business. I have to often clean the print heads in order to get good quality prints. I only use Epson ink cartridges. The past few months I am getting black marks on the paper - worse when I use high quality. I checked the ink cartridges make sure not leaking. Even when I print all red, it still has black smudges.

I have a WF-3520 that stopped sensing paper in the ADF. Open the top cover of the ADF. Near the top edge of the ADF there are some holes in the base plate where a plastic tab (that is in the cover) fits. This has a sensor that can collect dust. Clear the sensor by blowing or using a cotton tip - you will hear a beep when it has been cleared.

SOLVED: My ADF is not picking up the paper. - Epson WF ...

I have a lot of experience with Epson products (FF-640, V600, WF-3520, etc.) and have been loyal to the brand. I needed a printer that could print 11 x 17 sheets and bought this expecting the same quality and reliability. It worked well at first, but then I started having problems printing. I was getting lines across images. Head cleaning didn't ...
