Yet, I would want a little more information in the introduction. This site is a wonderful Cliff Notes to Bloom's Taxonomy. The reference page is most helpful. However, I would also add a booklist for your reader. You only had one picture of the theory. I would challenge you to include more pictures and graphs for your reader.

Students practice the initial steps involved in an engineering design challenge. They begin by reviewing the steps of the engineering design loop and discussing the client need for the project. Next, they identify a relevant context, define the problem within their design teams, and examine the project's requirements and constraints. (Note: Conduct this activity in the context of a design ...
