Konica Hexar Manual Film Cameras for sale | eBay

Hexar S-Mode (sort of, anyway...) Yep, it's true, the Hexar does not sport a shutter priority mode. Programmed aperture preference (P-Mode), Aperture priority (A-mode) and full manual (M-Mode), it's all there. But there's no way to crank the selector button all the way up to an S-Mode. What the Hexar does have though, is a user programmable ...

Konica Hexar Rangefinder Film Cameras for sale | eBay

This Konica Hexar RF is Leica-mount, manual focus rangefinder camera. It uses all LEICA lenses, as well as Leica-mount lenses from Konica and others. The Konica Hexar RF is a great camera on its own, but sadly collectors havebid the used price upto levels that make it silly to buy.

Konica Hexar RF - Ken Rockwell

The Hexar was developed by Konica, who was the world's largest maker of film, paper and professional photo lab gear, to show off what it could do. It was introduced in 1993. "Hexar" is related to all the other "Hex" product names Konica had been using for decades.

Konica Hexar - kenrockwell.com

The Konica Hexar is a 35 mm fixed-lens, fixed focal length autofocus camera which was produced through the 1990s. It was introduced to the market in 1993. While styled like a rangefinder camera, and intended for a similar style of photography, in specification it is more like a larger "point and shoot" camera.. The Konica Hexar enjoys something of a "cult status" among film camera aficionados ...

Konica Hexar - Wikipedia

Konica Hexar 2 Preface I have compiled some information which I could find in the original manuals from Konica, the internet and magazines and have put it together in this small booklet. It took me some time to gather this information and maybe it saves you some time. Most information is valid for the original Konica Hexar standard model and

Konica Hexar - Tedm.com

Along side the automatic functions common to the genre of cameras the Konica Hexar best fits into, it features aperture priority and even a full manual mode. On top of this, it also offers a few extra options often lauded as "hidden" features that unlock its potential.

Konica Hexar (AF) review - Picking a few holes in the ...

The Konica Hexar RF meters for exposure either by aperture priority auto- exposure (with AE lock and +/-2 EV exposure compensation) or in metered-manual mode. Aperture priority is selected by setting the shutter speed dial to either the AE or AE lock position.

Konica Hexar RF - Wikipedia

The Konica Hexar RF has two automatic modes labelled on the shutter AE for autoexposure and AEL for autoexposure lock – AEL locks the exposure on half-press of the shutter, AE doesn't. With either mode, the shutter speed is displayed in the viewfinder down the left hand side.

Konica Hexar RF Review - A Meandering Insight into my ...

It operates in one of 3 modes:: Program, Aperture preferred, and Manual.The Konica Hexar AF Program mode is pretty much like on every other camera. Except it allows you to control its biasing to aperture or shutter speed. Which is even better than Nikon or Canon cameras. So you even have control in Program mode.

Konica Hexar AF was Peter Lindbergh using one in NYC when ...

The Konica Hexar, first released in 1993, is a fixed-lens, autofocus camera from Konica with a 35mm f2 lens, rather expensive when new. It appealed with its superb lens and the general high quality of its construction. It also has some unique features, such as a "stealth mode" that makes it one of the quietest of 35mm cameras despite its automatic winding. Among users, it is popularly referred ...

Konica Hexar | Camerapedia | Fandom

I was always disappointed by the release of the Konica Hexar RF. As an early adopter of the Konica Hexar 35/2, I had hoped Konica would extend this range with another fixed lens Hexar, preferably with a 24mm f2 or a 50mm f2 lens option. By comparison to the fixed lens Konica Hexar, the RF just seemed to be too clunky.

Film Fridays: Konica Hexar RF review: Digital Photography ...

Konica Hexar AF 35mm Black Film Camera from 1993. Excellent condition. Everything works smoothly. If you know about this camera. You know it's a Cult classic. probably the most quiet film camera out there, more quiet and faster than a Leica M6. Also probably has the brightest view finder. The 35mm 2.0 fixed lens is very sharp.
