Ordering Decimals Game - Softschools.com

In this game, called Bugabaloo Addition, children are shown a number of "bug shoes" on the left and the right. The game asks the child to add the two groups of shoes together, and then pick the bug with the correct number printed on it. This game teaches addition through a graphical display that lets the child see and count the shoes.

Year 2 | White Rose Maths

Answer the questions you know first. Even though the HiSET is computer-administered, you can move back and forth between the questions. It's a good idea to go through all of the questions first and answer the ones you know, then you can go back to the more difficult ones and spend some extra time trying to determine the correct answer.

Free Practice Test for the HiSET® Test (Updated 2021)

Thus far, we have used two-dimensional Lewis structures to represent molecules. However, molecular structure is actually three-dimensional, and it is important to be able to describe molecular bonds in terms of their distances, angles, and relative arrangements in space (). A bond angle is the angle between any two bonds that include a common atom, usually measured in degrees.
