The MerCruiser® outdrive is very common in 17 to 25 ft runabout boats. In fact, MerCruiser's® market share through most of the '70s, '80s, and '90s was estimated by experts to be over 80 percent. The SEI outdrive is designed as an economical replacement for MerCruiser's® Alpha One® and Gen II outdrives.

1970s - mid-1980s. I have a Stringer 400 and you definitely need to be careful dropping the outdrive so you don't break things or bind the tilt mechanism gears. The clutch pack and housing is probably my least favorite thing about the Stringer drive. Otherwise, I find it's a pretty simple system and works well enough.

Re: Mercruiser 3.0L Drive lube refill All good points by the guys but! there has to be a witness of lube somewhere bilge, water, ? As stated drain it and remove the drive then pressure and vacuum test ther after to find the source of the leak use soapy water in a sray bottle while under pressure to ffind bubbles and the will lead you to possible problematic area.
