it as making a sandwich. The resin is your bread, and the fiberglass is your meat and cheese and fixins. You start with a paintbrush and apply a layer of resin to the area which will be receiving the patches. Then paint your largest patch with resin and smooch it on to your prepared surface.

Repairing Fiberglass : 7 Steps (with Pictures) - Instructables

In truth what most people call fiberglass is properly referred to as Fiber Reinforced Plastic (FRP). It is a composite material, much like Carbon Fiber Reinforced Plastic (CFRP) so popular today, but FRP predates carbon fiber by at least seventy years. One of the earliest uses of FRP was by the United States military in making helmet liners.
