Salvador Dali's 1931 painting, The Persistence of Memory, is a very small cabinet size picture filled with exquisite, meticulously rendered detail. It is probably for its hallucinatory, hyper realistic atmosphere that this work is one of the most iconic Surrealist paintings.

### **Salvador Dalí. The Persistence of Memory. 1931 - Module 2 ...**

The Persistence of Memory is also a coming of age story, and also has a lot to do with the response of Paul as a human (and not a camera) to what he sees in Namibia. There is a lot of material, and unfortunately the beautifully written individual scenes do not seem to gel very effectively into a larger whole.
